No. 50

Celebration of New Year's Harbor Bonds

Richmond Will Be Scene of Gateway on Tuesday Evening, December 31.

The customary New Year's celebration held in Oakland and San Francisco will be a tame affair compared with the big event in Richmond. No one will dare leave Richmond on New Year's eve to celebrate elsewhere without traveling incognito.

The committees have succeeded in getting liberal contributions for this big event in Richmond's history, and the noise that will be produced on that night will mark an epoch long to be remembered by those who may live to see the day when Richmond will be one of the greatest manufacturing cities in the world.

The board of trade is doing excellent work, and their committee has with little effort raised a large sum of money to assure the success of the celebration.

Oakland to Have New Baseball Park

Season of 1913 Promises to Be Successful One—New Grounds Convenient to Cities.

Oakland is to have one of the finest baseball parks in the west. A deal for the leasing of new grounds at Park street and San Pablo avenue has been made. Work on the grandstand and bleachers will be commenced at once. The plant will involve an expenditure of \$150,000. The grandstand will accommodate 5,000 and the bleachers 10,000. Contracts have been let and work has commenced. The playing field will be 450x450 feet. Oakland will have more games during the week. The attendance from both cities will guarantee this.

The S. P. and Key Route electric lines will handle the big crowds, both systems to have tracks and stations adjoining the ball park.

Council Appoints Supervising Engineer

P. A. Haviland to Have Charge of Harbor and Tunnel Construction.

The city council met in regular session Monday evening.

Bids for the improvement of Chausser avenue from First to Tenth street were received. The Worwick Paving Co. bid \$31,156; D. O. Church Co. bid \$30,693; and the Barber Asphalt Paving Co. bid \$31,599. The D. O. Church Co. were awarded the contract.

There were no bids filed for the improvement of Critchett avenue, and the clerk was ordered to re-advertise for bids, same to be opened December 23.

The Hutchinson Company applied for a temporary permit to maintain a stable at the junction of Ashland and Macdonald avenues. The permit was granted.

A stable permit was asked for by L. S. Higgins, stable to be located on 328 Fourth street. The matter was referred to the health commissioner.

Michael Bailey, a war veteran, applied for a free peddler's license, and was referred to the chief of police.

S. C. Rogers was granted an extension of 90 days on his Twenty-second street contract.

A petition signed by about fifty people was presented asking the council not to change the names of Barrett and Ashland avenues. The petition was placed on file for the reason that no steps had been taken to change the names.

Tax Collector I. E. Marshall reported that during the month of November the sum of \$57,678 was collected from taxes, fees and fines.

Chief of Police Arnold reported that during November his department made 108 arrests out of 122 complaints. The value of stolen property recovered amounted to \$300.

Health Commissioner Blake submitted his monthly report and that of the city chemist was also received and placed on file.

City Architect Ogborn reported for the month of November showing 52 building permits, 34 electrical permits, 29 plumbing permits and a total of \$287.15 collected in fees.

The matter of passing a labor ordinance, providing that only citizens of Richmond be employed on public work came up and was laid over for future consideration.

Several of the councilmen spoke on the subject and were of the opinion that an ordinance of that character would be faulty and unconstitutional, and that often the necessary kind of labor could not be found in Richmond. Richmond labor is being used on all public jobs wherever possible, and this rule will be followed.

The council adopted a resolution employing P. A. Haviland as supervising engineer of the harbor and tunnel construction.

After passing claims amounting to \$2451.47 the council adjourned.

Richmond Harbor Appropriation Bill

Industrial Commission Is Working Hard For Early Action by Next Congress.

Definite plans and action for the development of Richmond's harbor project were discussed Wednesday afternoon at a luncheon tendered Congressman Joseph H. Knowland, Engineer P. A. Haviland and Col. Thos. R. Reese of the U. S. Army Engineering Corps. Congressman-Elect Curry was unable to attend, but a letter from him read by Secretary Wernse, convinced the members of the Richmond Industrial Commission, by whom the luncheon was given, that he would work diligently for the interest of Richmond harbor. Congressman Knowland said he was interested in the speedy completion of Richmond's harbor project, for which he had secured the federal survey two years ago, notwithstanding Contra Costa county had been eliminated from his district. Mr. Knowland is conservative, and gave out valuable information as to the best mode of procedure, and there is every reason to believe the appropriation will be made by the next session of congress. Col. Reese also submitted valuable information, and with Messrs. Knowland, Curry, Reese and Haviland co-operating in the interest of the project, Richmond is guaranteed strong support at the national capital as well as at home.

The luncheon was served at the Palace hotel, San Francisco, about forty guests and members of the commission being present. President Gignoux presided as toastmaster. The menu was excellent, the good fellowship and enjoyed by all present.

Silver Wedding.

One of the prettiest social functions of the winter season was given at the home of Mr. and Mrs. W. H. Sanford Wednesday night in East Richmond when the above happy couple celebrated their silver wedding, commemorating the vows of a quarter of a century ago made in the silver state of Colorado. The wedding ceremony was beautiful and impressive, the parlors attractively decorated and the music entrancing. Guests were present from the bay cities, San Jose and other points.

Trains to Run July 1.

The Oakland, Antioch & Eastern will be running trains from Oakland into Sacramento by next July. Construction on the big \$1,500,000 bridge across Suisun bay near Pittsburg has been commenced. The tunnel through the Berkeley hills will be completed early next month and trains will then be run from Oakland to Bay Point. A large ferryboat will convey trains across the bay until the bridge is completed.

More Harbors.

Martinez is agitating the harbor question, and the business men of the county seat town are taking steps to promote the project. H. C. Cutting and Engineer W. S. Farley met with the Martinez boosters Wednesday night and assisted in outlining preliminary work in starting the project.

Tunnel Accident.

Louis Paich aged 21, and Theodore Dravich aged 22, were killed in the tunnel of the Oakland and Antioch electric road near Lafayette Tuesday morning at 10 o'clock when the tunnel where they were working caved in.

He Came Back.

Henry T. Jones, who mysteriously disappeared from the Sacramento goose stew function, causing his family and friends much uneasiness, was located in Battle Mountain, Nev., and returned home to Oakland with his wife. Jones was at one time county assessor of Contra Costa county.

Toys at the Terminal Stationery Store, 618 Macdonald ave.

Alpha Lodge Elects.

Alpha Kodge of Masons elected officers Tuesday night as follows: Worshipful master, H. A. Stiver; senior warden, Thomas Thayer; junior warden, Luke Glavinovich; treasurer, L. Little; secretary, H. Poage; chaplain, E. H. Harlow; senior deacon, R. E. Slattery; junior deacon, E. W. Smith; marshal, Ross Calfee; senior steward, Frank J. Gardner; junior steward, W. F. Faber; tyler, Max Michael; organist, Arthur Howard; trustees, S. B. Kurtz, C. J. Shepherd and C. S. Gibson.

Hunters Have Narrow Escape.

A party of hunters comprising Oliver Wylie, Rudolph Berger, John Woods, Joseph Smith, Clarence Leet and F. Stevens had a thrilling adventure on the bay Sunday night when their craft ran afoul of the government dike that projects into the bay. The entire party were drenched to the skin when rescued and were in a precarious condition, their boat being capsized and hanging against the piling. After being rescued by a friendly launch, they were dried out and sent home via Rodeo, where they secured a rig and drove to Richmond.

Buy a Ford.

John G. Gerlich, superintendent of the Los Angeles Press Brick Co., is just in receipt of his five passenger Ford, delivered to him by the Richmond Garage, who are agents for the same. He starts for Los Angeles Sunday, December 15th, and expects to make the return trip in his new Ford by Dec. 22.

The pottery workers and the management of the Pacific Porcelain Co. have not yet agreed upon a wage scale.

Acresage Property

FOR SALE—80 acres deep soil; level land, 1/2 mile from station on Southern Pacific railroad, 1/2 mile from state highway; nine miles from Merced; price \$60 an acre. Editorial Endorsement

The Editor of the Northfield, Minnesota, News, says editorially: "Three months ago the News plant depended upon a gasoline engine and two water motors for its power, the cost of both averaging about \$38.00 per month. The plant is now fully equipped with electric motors, and for the three months during which they have been used the cost has averaged \$7.00. Add to this saving in cost the other advantages which follow the installation of Electric Power, and sufficient evidence is furnished to explain why the News is an exponent of the 'Electric Way'."

PHILIPPINE INDEPENDENCE OPPOSED BY PRESIDENT TAFT IN FINAL MESSAGE

Leaves Tariff Revision to Successor, Predicts Early Opening of Canal, and Deplores One Battleship a Year Policy as Inadequate to Needs

Washington.—President Taft will make no further effort to have Congress reduce the tariff. In a "general" message to Congress yesterday the President clearly indicated his intention of leaving further tariff revision to Mr. Wilson and the Congress just elected.

"Now that a new Congress has been elected on a platform of tariff for revenue only rather than a protective tariff and is to revise the tariff on that basis," said the President, "it is needless for me to occupy the time of Congress with arguments or recommendations in favor of a protective tariff."

This message, the second submitted by the President since the present session began, will be his last of a general character. It dealt with every department of the government except the State Department, recommended much of the legislation which Mr. Taft previously had urged upon the attention of Congress and took up and discussed at length several subjects comparatively new.

Mr. Taft came out strongly against independence for the Philippines, proposed, he said, in a bill now before Congress.

He deprecated the new policy of one battleship a year instead of two and endorsed again the scheme of currency reform proposed by the National Monetary Commission.

Conservation was lightly touched, the President recommending the amendment of bills now before Congress so that water power companies which dam navigable rivers will contribute to the improvement of these streams.

He declared that no radical change in the Sherman anti-trust law was needed and praised the Supreme Court for its recently announced changes in rules of equity procedure. In this connection the President asked Congress to pass legislation which would allow the Supreme Court to formulate rules of procedure under the common law in federal courts, and predicted that such action would facilitate justice in those courts and reduce the cost of litigation to the public.

The Panama canal was dismissed in a few words, the President proph-

etizing its opening in the latter half of 1913. He took occasion, however, to declare that Congress should renege the work of Colonel Goethals by an appointment as major-general, with the provision that he become chief of the engineers when the term of the incumbent expires.

He made only a brief reference to the dispute with Great Britain over the Panama canal act and said that when a formal protest was lodged against the act it would be taken up by the United States.

The army the President discussed at some length. He praised the army legislation of the last Congress, but said that provision should be made by law so that the nation's foreign regiments may be always maintained upon a war footing, and he urged the passage of the pending militia pay bill designed to make service in the militia more enticing, and showed that the home army will be nothing more than a "skeleton" until Congress provides that it be concentrated in fewer posts than are now maintained. He urged also the passage of another bill now before Congress designed to raise quickly a volunteer army in case of war.

President Taft did not approve the proposal for immediate autonomy for the Philippines and independence in eight years, as proposed in a bill pending in Congress.

"In the Philippine Islands we have embarked upon an experiment unprecedented in dealing with dependent people," said President Taft. "We are developing there conditions exclusively for their own welfare. Through the unifying forces of a common education, of commercial and economic development, and of gradual participation in local self-government, we are endeavoring to evolve a homogeneous people fit to determine, when the time arrives, their own destiny. We are seeking to arouse a national spirit and not, as under the older colonial theory, to support such a spirit. But our work is far from done. Our duty to the Philippines is far from discharged."

For educational, sanitary and political reasons the President said this country should not consent to grant independence at this time.

FOR VALUATION OF RAILWAYS

Scope of Adamson Bill is Broadened and House Passes Measure

Legislation Has Been Urged by Interstate Commerce Commission

Washington.—Amended to authorize a complete investigation into the question of stock and bond issues of interstate carrier corporations, the bill by Representative Adamson empowering the interstate commerce commission to make a physical valuation of the property of railroads and other common carriers, was passed by the house without a dissenting vote.

The measure, asked for by the interstate commerce commission, would provide for a far-reaching inquiry with a view of having railroad rates fixed on the basis of income on actual investment.

It would authorize the employment of engineers and other experts with power to summon witnesses and take testimony, to make an inventory listing in detail the property of every interstate carrier. The investigators would be directed to investigate the original cost for railway purposes of each piece of property, the cost and value to the present owner and what increase in value is due to improvement. All questions relating to bond and stock issues of such carriers would be inquired into and reported upon.

The amendment adopted provides that the proposed investigation by the commission's experts shall "cover, so far as practicable, questions pertaining to the issuance of stocks and bonds by common carriers, subject to the provisions of this act and the power of congress to regulate or affect the same, and particularly methods to prevent the issuance of stocks and bonds by such corporations without full value being received therefor."

ATTORNEY GENERAL READY TO PUSH BIG LAND SUITS

Washington.—The Sherman anti-trust law is proving its adequacy as a civil statute and there is no necessity for the much discussed proposed amendment particularizing unlawful practices in restraint of trade, according to George W. Wickersham, attorney general of the United States, in his annual report to congress.

On the other hand, however, the at-

SAYS PEOPLE SHOULD OWN COAL MINES

Boston Man Advocates Public Ownership as Remedy for Conditions

Federal Aid to Navigation Asked by Delegates to National Waterways Congress

Washington.—Mayor Fitzgerald of Boston made the declaration in an address here before the National Rivers and Harbors congress that the United States should own the coal mines of the country. He did not agree, however, with Senator Townsend of Michigan, who had preceded him, that it might be well for the federal government to take possession of dock sites on rivers improved by the government, in order to keep railways from preventing water competition.

"I would be in favor," said Mayor Fitzgerald, "of having the municipality or the state and the federal government cooperate in the control of dock sites, but I think the local authority should have some say."

The railroads of the country cannot carry all the business, the mayor said, and should have plenty of water competition. He declared that on \$30,000,000 worth of coal Boston had paid \$70,000,000 in transportation charges and that something should be done to improve these conditions.

All waterways to which sufficient commerce is tributary should be improved at the federal expense, said Senator Townsend, and at the same time the question of water power as well as navigation should be considered to help defray the expense of improvement. He declared that when there was competition between a railway and a boat line, the former should not be allowed to make rates over any part of its lines lower than compensatory to destroy competition.

Dock privileges, he said, should be open to all and should be owned either by the municipality or by the federal government.

C. W. Hodson of Portland, Or., said the solution of the river improvement problem was to reach the ear of the voters, for congressmen are "amenable only," he asserted, "to the man behind the ballot."

When Senator-elect Joseph E. Ransdell of Louisiana brought his gavel down in formally opening the ninth annual convention of the National Rivers and Harbors congress, he faced more than a thousand delegates from throughout the United States and Canada.

President Taft was the first speaker formally to welcome the enthusiasts for rivers and harbors improvement.

CANAL BILL TERMS ATTACKED

British Ambassador at Washington Formally Files Protest

Washington, Dec. 10.—Great Britain's formal note of protest against that section of the Panama canal act which exempts American coastwise shipping from payment of tolls for passing through the Panama canal, a document written by Sir Edward Grey, British minister of foreign affairs, was presented to Secretary Knox last night by the British ambassador, James Bryce, who read the note to the secretary at the latter's home. It is an elaboration of the points of objection in the note presented to the state department last July.

In brief, these are the objections: That while it was clearly in violation of the Hay-Pauncefote treaty either to remit or refund tolls on all American shipping using the canal, the same objection probably would apply to the coastwise trade shipping in view of the probable impossibility of framing regulations that would not result in a preference to American shipping.

In addition to supporting these points by long arguments, Sir Edward Grey indicates clearly that strong resistance will be offered to any attempt to exclude from the canal British ships owned by Canadian railroads, or whose owners may be guilty of violating the Sherman anti-trust act. He holds that this section of the act cannot apply to British shipping, but only to United States vessels.

The British note might be summed up as a definition of the difference between the two governments regarding the construction of the Hay-Pauncefote treaty, winding up with a proposal that the issues be settled by arbitration, if they cannot be adjusted by mutual agreement, for which a way remains open.

Secretary Knox listened attentively to the reading of the note, and promised to take the matter under consideration, which he felt would require some time.

DRASTIC ANTI-MONOPOLY STATUTE DECLARED VALID

Washington.—The constitutionality of the South Dakota anti-monopoly or "fair discrimination" act of 1907 was upheld by the supreme court. The act makes it a crime to sell, with intent to ruin competition, a commodity in general use to a dealer in one place at a lower rate than to a dealer in another place within the state. Similar laws have been enacted in several northwestern states and are regarded as among the most rigid anti-monopoly statutes ever enacted.

THE TERMINAL

ISSUED EVERY FRIDAY. Established in 1903. Legal City and County Paper.

GEO. W. KYLE, Publisher and Editor.

TERMS OF SUBSCRIPTION: One year, in advance \$2.00; six months, in advance \$1.00. Advertising rates on application.

Entered as SECOND-CLASS MATTER June 20, 1903 at RICHMOND, CALIFORNIA, under the ACT OF CONGRESS of March 3, 1879.

Legal notices must be paid for on or before delivery of said copy of publication. No exception to this rule.

Santa Claus is hitching up his reindeers.

Santa Claus is the "guy" who will put the slip in slippers for dad's usual Christmas present.

It is more convenient to receive than to give. The strain on the pocketbook is not so great.

Hobble skirts were worn by the Egyptian ladies 5000 years ago, and safety pins were used by the Greeks 22 centuries ago.

The lowest money rates in this country are paid by speculators in the financial centers, the highest rates are paid by the farmer.

Berkeley has caught the harbor contagion. There's no reason why Berkeley should not utilize one of the greatest waterfronts in the world.

President elect Wilson advocates currency reform and says it lies very near to the prosperity of the country. He says that the present system is unscientific.

The Macdonald avenue subway "needs fixin'" immediately. Traffic through this narrow passageway is so congested that a serious accident may happen any day.

Carrie M. Jones of Los Angeles, has given \$100,000 to the University of California for the endowment of scholarships for young men qualified for admission to the University, but who are unable financially to pursue their studies. Levi Strauss and Phoebe A. Hearst also give generously to maintain other scholarships.

P. A. Haviland and D. A. Knowles, men whom Richmond is fortunate to have in publicity and construction work, are originally from the Hawkeye state (Iowa). This not a startling coincidence, but do you realize that the largest per cent of live wires in Southern California are from Iowa? And boosters! Leave it to them.

Chief of Police Arnold is up to date. He has introduced a municipal woodpile and prisoners are given exercise in delinquent movements by sawing and splitting into stove lengths Southern Pacific railroad ties discarded by that company and presented to Richmond's chief to be utilized in relieving the poor of the city who may be in need of fuel. Now if Mayor Owens will introduce a municipal market similar to the one the Indianapolis mayor inaugurated, the governorship boomlet might develop into something real "serious."

Personal Mention.

The funeral services of the late Homer Washburn were conducted today at Clark's undertaking parlors, Rev. D. W. Calfee officiating.

Miss Jessie B. Dover of Bakersfield was married Wednesday evening to Harry E. Baxter in San Francisco. Mr. Baxter is a Santa Fe employee.

The wedding of Miss Anita Johnson to Mr. Fred Dunning is announced to take place next Sunday at the home of the bride's parents on Cottage avenue.

J. J. Flinn and G. E. Tracer, contractors, have commenced suit in the superior court against 18 property owners on First street for street work assessments.

E. A. Wernse, brother of H. W. Wernse, secretary of the Industrial Commission, was a Richmond visitor Tuesday. Mr. Wernse is from St. Louis, his home, and may locate in Richmond.

T. W. Mufich, real estate dealer, returned from an extended trip in the northwest yesterday. He reports a fine time in the webfoot country, and says Richmond is well advertised in the sound districts.

Frank King is attending the annual state convention of county assessors in Los Angeles. Mr. King is chief deputy to Assessor Mees in the county office at Martinez, and is one of the strong "battery" of Richmond's boosters.

A movement is on foot to widen some of the narrow streets in Richmond before too many permanent buildings are constructed thereon. It has been suggested that Barrett avenue's name be changed to Ashland avenue, as the two streets merge into one, thereby obviating confusion of names.

Baby Show a Winner. Under the supervision and management of Mesdames Stiver and Kinney the baby show was a great success financially and socially. The receipts of the affair ran into three figures, and the interest taken by fond papas and mammas has caused an upward tendency in the baby market in Richmond. The ladies in charge of the show are to be complimented for the success they have made in this line of entertainment, and are urged to put on another attraction of this kind at their earliest convenience.

Little Business Boosts. Read the ads. Capwell's adv. tells the story. Yonce carries a swell stock and a big variety. Kurtz is an old timer at the biz. His neat store proves it. Ye landlord Brown has made the Imperial Hotel popular. Stiefvater of Big Store fame is doing a big business also. Something worth while—a Sunday dinner at the Boneyer hotel. Paul Carroll does the hat business of the bay cities. Three stores. The Bargain Emporium, No. 404 Macdonald, has a big line of presents for the holidays.

There is considerable newspaper talk about the United Properties company making some changes in their "pitching staff."

Richmond's city council did not go on record in passing an ordinance that none but Richmond citizens should be given employment on municipal work. Councilman Follett was right when he said that such an ordinance would be unconstitutional. Residents of Richmond should be given preference, and there is no doubt that the majority of contractors will favor home talent.

Dr. Cook, the Arctic explorer, is at Pantages Oakland theater this week. He lectures and exhibits slides of the frozen north that are interesting, and accuses Peary of appropriating the honor of discovering the north pole and also of "lifting" Cook's cache of grub while the latter was exploring near the pole. Cook says that Peary is not entitled to the honors he claims, and that the truth will yet prevail, and Peary will be shown up.

The city council wisely selected P. A. Haviland as supervising engineer of the harbor and tunnel construction. Mr. Haviland has proved beyond a doubt that he is thoroughly competent to supervise these great improvements for Richmond. He has spent much time in preparing plans for this work that have been approved by the best authority in the employment of the U. S. government, and this is surely sufficient recommendation. The city council of Richmond is to be complimented in making the selection of P. A. Haviland.

In submitting his annual report Secretary of Agriculture Wilson says that farm production has increased from four billion to nine billion dollars annually in the past sixteen years, the year 1912 breaking all previous records. He declares that the increase in production is solving the high cost of living problem, and that a reduction may now be looked for. Secretary Wilson is no doubt basing his claim on the law of supply and demand. The consumer, the man with the dinner pail, knows that Mr. Wilson's sophistry is a little stale. The supply of farm products may be greater, and the demand less—and prices continue sky high. Eggs at 75c per dozen and millions of them on cold storage, puts a different phase on the question of supply and demand.

Chief of Police Arnold is up to date. He has introduced a municipal woodpile and prisoners are given exercise in delinquent movements by sawing and splitting into stove lengths Southern Pacific railroad ties discarded by that company and presented to Richmond's chief to be utilized in relieving the poor of the city who may be in need of fuel. Now if Mayor Owens will introduce a municipal market similar to the one the Indianapolis mayor inaugurated, the governorship boomlet might develop into something real "serious."
